CONCLUSION:

Thar India speeds up towards its goal of Rural Skill Development and School of Entrepreneurs. The Three Day Workshop, Motivational and Awareness program was a huge success. The area covered is remote village cluster of Sariska region comprising of tribal, poor, underprivileged and illiterate peoples of rural part of Rajasthan, India. It was the first time that a SHG group of youth was formed under guidance of Thar India and SEBI.

The program was held on invitation of Gram Sarpanch, Garhbasai after the success of previous awareness sessions by Thar India in the Thanagazi Area. Thar India was awarded with Appreciation Certificate and promise to continue such motivational and awareness program in the region along with development and skill trainings.

There is strong possibility for School of Entrepreneurs in the region as per the survey held. As the area is remote and rural where dependency on forest is a lot. People's have skills but are not able to pursue due to non-existence of market for such products and have to move towards urban area for livelihood and earnings.

The Wildlife Exhibition and Aero-Show brought a huge smile, zeal and enthusiasm from the youth and students of tribes and dwellers.
